2. In closing out a juvenile, a new outcome option has been added:

Neutral/Assessment

This option does not count as either a successful or unsuccessful outcome but indicates that the juvenile has been absent from the program for 21 days or more. The juvenile should remain in the program during absences of 21 days or less. If you use this option, this requires that the juvenile would need to begin the program with a new record upon his return. Options for Neutral/Assessment completion include moving from the county, drug treatment program, mental health treatment, detention, and inappropriate for the program.

The screenshot shows a web form for closing out a juvenile. The form includes the following fields and options:

- Most Serious Recent Offense:** ASSAULT 3 (ASS3)
- Prior Offense?** Yes No
- Most Serious Prior Offense:** (empty dropdown)

- Successful Completion?** Yes No Neutral/Assessment In Progress
- Select Neutral/Assessment Completion:** Drug treatment program
- Updated by:** on 11/28/2017
- Buttons:** Save, Clear, Cancel, Exit

A red circle highlights the "Successful Completion?" section and the "Select Neutral/Assessment Completion:" dropdown.

3. When closing out a juvenile for unsuccessful or successful completion, new fields have been added to enter info about the initial outcome for the juvenile. The fields are Destination, Employment, Education and whether the juvenile is under court supervision. These must be filled in for the juvenile to be completed.
