<b>Facility AUDIT FINDINGS</b>
<b>Summary of Audit Findings</b>
The OAS automatically populates the number and list of Standards exceeded, the number of Standards met, and the number and list of Standards not met.

Auditor Note: In general, no standards should be found to be "Not Applicable" or "NA." A compliance determination must be made for each standard. In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.

<b>Targeted Inmate/Resident/Detainee Interviews</b>	
<b>58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:</b>	8
<p>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".</p>	
<b>60. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:</b>	0

<p><b>b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</b></p>	<p>The auditor observed no residents with physical disabilities during the on-site portion of the audit. ## SITE REVIEW AND DOCUMENTATION SAMPLING

### Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

<b>84. Did you have access to all areas of the facility?</b>	<input checked="" type="radio"/> Yes <input type="radio"/> No
--	--

### Was the site review an active, inquiring process that included the following:

<b>85. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?</b>	<input checked="" type="radio"/> Yes <input type="radio"/> No
---	--

<p><b>86. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?</b></p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p><b>87. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?</b></p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p><b>88. Informal conversations with staff during the site review (encouraged, not required)?</b></p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p><b>89. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).</b></p>	<p>During the on-site portion of the audit, the auditor was given complete access to and the ability to observe, all areas of the audited facility. During the site review, the auditor was accompanied by the facility staff. The auditor informally interviewed residents, and staff during the walk through. Grievance Boxes are located in the education halls for easy access for the residents. There is a small conference room where residents are allowed to make phone calls, under supervision of staff. The facility has two living units housing twelve residents in single rooms with showers in each room. The facility does not have isolation however; the facility has a "timeout" room to separate youth as needed. The auditor was unable to observe the intake process, but through discussion with intake staff, the auditor was provided a detail description of the process. The auditor observed staff supervising youth, and the placement of cameras throughout the facility.</p>
<p><b>Documentation Sampling</b></p>	
<p>Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.</p>	

<p><b>90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?</b></p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p><b>91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).</b></p>	<p>During the onsite visit, the auditor was provided access to all documents requested. All documents requested were received to include but not limited to employee and resident files, sensitive documents, and investigation reports. During the report writing phase the auditor request additional documentation for standard 115.331, the facility provided all requested documents expeditiously.</p>
<p><b>SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY</b></p>	
<p><b>Sexual Abuse and Sexual Harassment Allegations and Investigations Overview</b></p>	
<p>Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.</p>	

**92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:**

## Sexual Abuse and Sexual Harassment Investigation Outcomes

### Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for “convicted.”) Do not double count. Additionally, for question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

#### 94. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

It should be noted; the facility did not have any sexual abuse or sexual harassment allegations during the 12-months preceding the audit. The auditor determined, because there were physical contact between the residents, the auditor identified the investigations in the "sexual abuse" category based solely on the OAS template.</p>

The facility indicated in their responses to the Pre-Audit Questionnaire that the agency ensures that each facility it operates develops, implements, and documents a staffing plan that provides for adequate levels of staffing, and, where applicable, video monitoring, to protect residents against sexual abuse. In calculating these adequate staffing levels and determining the need for video monitoring, facilities shall take into consideration all relevant factors.

115.313 (b): The agency shall comply with the staffing plan except during limited and discrete exigent circumstances, and shall fully document deviations from the plan during such circumstances.

The facility has a developed staffing plan that is reviewed annually to see whether adjustments are needed to: (a) the staffing plan; (b) prevailing staffing patterns; (c) the deployment of monitoring technology; or (d) the allocation of agency or facility resources to commit to the staffing plan to ensure compliance with the staffing plan.

The facility reports no deviations from the staffing plan during the 12-months preceding the audit.

Any facility that, as of the date of publication of this final rule, is not already obligated by law, regulation, or judicial consent decree to maintain the staffing ratios set forth in this paragraph shall have until October 1, 2017, to achieve compliance.

The agency requires each facility it operates to develop, document, and make its best efforts to comply on a regular basis with a staffing plan that provides for adequate levels of staffing, and, where applicable, video monitoring, to protect residents against abuse. The facility maintains staffing ratios of a minimum of 1:8 during resident waking hours and 1:16 during resident sleeping hours.

Such policy and practice shall be implemented for night shifts as well as day shifts. Each secure facility shall have a policy to prohibit staff from alerting other staff members that these supervisory rounds are occurring, unless such announcement is related to the legitimate operational functions of the facility.

The facility requires that intermediate-level or higher-level staff conduct unannounced rounds to identify and deter staff sexual abuse and sexual harassment. The facility documents unannounced rounds and covers all shifts. The facility prohibits staff from alerting other staff of the conduct of such rounds. (4) At any level of the administrative process, including the final level, if the resident does not receive a response within the time allotted for reply, including any properly noticed extension, the resident may consider the absence of a response to be a denial at that level.

The agency's policy and procedures that require that a decision on the merits of any grievance or portion of a grievance alleging sexual abuse be made within 90 days of the filing of the grievance.

Agency policy permits third parties, including fellow residents, staff members, family members, attorneys, and outside advocates, to assist residents in filing requests for

administrative remedies relating to allegations of sexual abuse, and to file such requests on behalf of residents. Policy requires that if the resident declines to have third-party assistance in filing a grievance alleging sexual abuse, the agency documents the resident's decision to decline.
