## Facility AUDIT FINDINGS

### Summary of Audit Findings

The OAS automatically populates the number and list of Standards exceeded, the number of Standards met, and the number and list of Standards not met.

Auditor Note: In general, no standards should be found to be "Not Applicable" or "NA." A compliance determination must be made for each standard. In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.

#### Number of standards exceeded:

0

#### Number of standards met:

43

#### Number of standards not met:

0

## POST-AUDIT REPORTING INFORMATION

### GENERAL AUDIT INFORMATION

#### On-site Audit Dates

1. Start date of the onsite portion of the audit:	2024-04-02
2. End date of the onsite portion of the audit:	2024-04-03

#### Outreach

10. Did you attempt to communicate with community-based organization(s) or victim advocates who provide services to this facility and/or who may have insight into relevant conditions in the facility?	<input checked="" type="radio"/> Yes <input type="radio"/> No
a. Identify the community-based organization(s) or victim advocates with whom you communicated:	During the pre-audit phase, the auditor reached out to two (2) community-based or victim advocate organizations via phone to include: Alabama Coalition Against Rape and National Children's Advocacy Center. The auditor spoke to representatives from these organizations, and they did not report any knowledge of any sexual abuse or sexual harassment incidents at Vacca Campus in the past 12 months.

No volunteers were present during the onsite portion of the audit; therefore, the auditor spoke with a volunteer via phone while on campus at the audited facility.
<b>INTERVIEWS</b>	
<b>Inmate/Resident/Detainee Interviews</b>	
<b>Random Inmate/Resident/Detainee Interviews</b>	
<b>53. Enter the total number of RANDOM INMATES/RESIDENTS/DETAINEES who were interviewed:</b>	10

<p><b>54. Select which characteristics you considered when you selected RANDOM INMATE/RESIDENT/DETAINEE interviewees: (select all that apply)</b></p>	<p><input checked="" type="checkbox"/> Age</p> <p><input checked="" type="checkbox"/> Race</p> <p><input checked="" type="checkbox"/> Ethnicity (e.g., Hispanic, Non-Hispanic)</p> <p><input checked="" type="checkbox"/> Length of time in the facility</p> <p><input type="checkbox"/> Housing assignment</p> <p><input type="checkbox"/> Gender</p> <p><input type="checkbox"/> Other</p> <p><input type="checkbox"/> None</p>
<p><b>55. How did you ensure your sample of RANDOM INMATE/RESIDENT/DETAINEE interviewees was geographically diverse?</b></p>	<p>All residents were assigned to one housing unit during the onsite audit; therefore, housing assignment was not considered. Additionally, the facility was all male; therefore, gender was not considered.</p>
<p><b>56. Were you able to conduct the minimum number of random inmate/resident/detainee interviews?</b></p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p><b>57. Provide any additional comments regarding selecting or interviewing random inmates/residents/detainees (e.g., any populations you oversampled, barriers to completing interviews, barriers to ensuring representation):</b></p>	<p>All residents selected at random for interview agreed to be interviewed and were very cooperative during the process.</p>
<p><b>Targeted Inmate/Resident/Detainee Interviews</b></p>	
<p><b>58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:</b></p>	<p>2</p>

As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".

<p><b>60. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:</b></p>	<p>0</p>
<p><b>a. Select why you were unable to conduct at least the minimum required number of targeted inmates/residents/detainees in this category:</b></p>	<p><input checked="" type="checkbox"/> Facility said there were "none here" during the onsite portion of the audit and/or the facility was unable to provide a list of these inmates/residents/detainees.</p> <p><input type="checkbox"/> The inmates/residents/detainees in this targeted category declined to be interviewed.</p>
<p><b>b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</b></p>	<p>Information provided by the PREA Compliance Manager on the targeted population was triangulated with discussions with school officials, medical and mental health staff. Also, residents were asked if they reported any disabilities during the random interviews as well.</p>
<p><b>61. Enter the total number of interviews conducted with inmates/residents/detainees with a cognitive or functional disability (including intellectual disability, psychiatric disability, or speech disability) using the "Disabled and Limited English Proficient Inmates" protocol:</b></p>	<p>2</p>

<p><b>62. Enter the total number of interviews conducted with inmates/residents/detainees who are Blind or have low vision (i.e., visually impaired) using the "Disabled and Limited English Proficient Inmates" protocol:</b></p>	<p>0</p>

**SITE REVIEW AND DOCUMENTATION SAMPLING**

**Site Review**

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

<p><b>84. Did you have access to all areas of the facility?</b></p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
---	---

**Was the site review an active, inquiring process that included the following:**

<p><b>85. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?</b></p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>

**Documentation Sampling**

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

<p><b>90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?</b></p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>

<p><b>91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).</b></p>	<p>In addition to review a sample of documentation uploaded during the pre-onsite audit phase, the auditor was also able to review documentation of majority of the staff, residents, volunteers, and contractors selected for interview during the onsite audit phase. Investigative files were also reviewed on site along with training and education records of both residents and staff/contractors/volunteers. Youth records were also reviewed onsite for residents placed at the facility during the review period.</p>

**SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY**

**Sexual Abuse and Sexual Harassment Allegations and Investigations Overview**

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

**92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:**

## Sexual Abuse and Sexual Harassment Investigation Outcomes

### Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for “convicted.”) Do not double count. Additionally, for question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

- Agency PREA Coordinator
- Vacca PREA Compliance Manager
- Vacca Campus Administrator
- Agency Head (Executive Director)

Analysis and triangulation of information: this standard requires the agency to have a zero-tolerance policy toward all forms of sexual abuse and sexual harassment. Vacca Campus PAQ completed by agency officials indicates the agency's zero-tolerance policy for sexual abuse and sexual harassment is in the form of DYS Policy and Procedures 13.8.1.

DYS Policy and Procedures 13.8.1 outlines the agency's approach to preventing, detecting, and responding to sexual abuse and sexual harassment. The PREA Form 115.311 PREA Fact Sheet is a synopsis of the Prison Rape Elimination Act standards along with links to additional resources.

The Agency PREA Coordinator indicated that she reports to the Administrator of Community Services; however, she has direct access to the Executive Director as it relates to her duties. A copy of the agency's organization chart was provided to the Auditor. The organization chart has a dotted line from the PREA/ACA Coordinator to the Office of Licensing and Standards and this chart was observed on the agency website. Additionally, the agency's PREA Coordinator is identified in a memorandum dated 6/16/21 from the Executive Director's Office to "All DYS and Private Provider Facilities." A previous interview with the Agency Executive Director confirmed information provided in the memorandum from his office and that the PREA Coordinator has direct access to his office for all things PREA-related. The memo includes the responsibilities of the PREA Coordinator and information affirming the Alabama Department of Youth Services position of zero tolerance toward sexual abuse and harassment at all its facilities.

The PAQ signified the agency has three (3) PREA Compliance Managers that report directly to the PREA Coordinator, and this was confirmed in discussions with the PREA Coordinator. She stated that her team have sufficient time and authority to perform their duties. The Vacca PREA Compliance Manager was interviewed, and she reported having sufficient time and authority to coordinate PREA compliance efforts at the campus. The Vacca Campus Administrator was also interviewed, and she indicated the PREA Compliance Manager has authority to work with facility staff from various departments on campus in its efforts to comply with the PREA standards. The Vacca Organization Chart that has been signed by the Campus Administrator on 11/20/23 has a direct line from the Campus Administrator to the PREA Compliance Manager. Language in the DYS Policy and Procedures 13.8.1 regarding the person responsible for PREA compliance at the agency, is consistent

	<p>with other documentation reviewed as well as interviews with agency and facility leadership.</p> <p>Based on the evidence reviewed and analyzed, it has been determined by the auditor that the agency, Meets Standard 115.311 due to substantial compliance in all material ways with this standard</p>

The Vacca Campus PAQ completed by agency officials indicated the agency’s standard for contracting with organizations providing placement services for children, is outlined in DYS Policy and Procedures 13.8.1.</p> <p>The DYS Policy and Procedures 13.8.1. states “all DYS and contract service provider facilities with whom DYS contracts for the confinement of juveniles will be audited by a certified PREA Auditor in accordance with the PREA Audit schedule and found compliant following the 180-day corrective action plan in order for DYS to be able to continue to utilize their services.”</p> <p>The Vacca Campus PAQ indicates the agency has 10 contracts for the confinement of residents. Review of the “PREA Compliance Reports” section of the agency</p>

website verifies 10 active contract facilities. Each residential contract had language affirming that contractors will “comply with PREA Act of 2003 and self-monitoring requirements” and this was also confirmed by the Agency PREA Coordinator. The contracts to provide placement services for children also included language of there being “DYS announced and unannounced compliance monitoring.”

The designated Contract Administrator was interviewed and it was confirmed that all new contracts or contract renewals signed on or after August 20, 2012, has standard language regarding compliance with PREA standards. The auditor inquired about agency monitoring of PREA compliance for these contracts and it was reported that such monitoring is conducted by the Division of Community Services. The Agency PREA Coordinator ensures that contract residential providers receive a PREA audit during the agency’s 3-year audit cycle. The Agency PREA Coordinator informed the auditor that she visits all state- operated and contract facilities prior to scheduled audits, conducts meetings with these sites, provides and receives information from these facilities throughout the year. She maintains email correspondence and travel documents for her PREA- related site visits to these facilities. The Agency PREA Coordinator also assists in preparing information needed for the Governor to certify compliance with the PREA standards for all facilities under her operational control.

Based on the evidence reviewed and analyzed, it has been determined by the auditor that the agency Meets Standard 115.312: based on substantial compliance in all material ways with this standard for the review period.

- Vacca Security Staff (5)

3. Site Review/Observations:

- Observations of youth and staff in campus programming or on housing unit
- Informal discussions with facility staff and residents
- Review of unit logbooks
- Review of video surveillance

Analysis and triangulation of information: this standard requires the facility to have a staffing plan to protect residents against sexual abuse. The Vacca Campus PAQ indicates the facility's supervision and monitoring plan is outlined in DYS Policy and Procedures 13.8.1.

The Vacca Campus PAQ indicated the facility had an average daily population of 25 youth during the past twelve months with no deviations being reported from the 1:8 resident-to-staff waking-hours ratio and 1:16 sleeping hours ratio during the entire review period. During the site review the auditor observed adequate staffing levels between youth and staff in the housing unit, in the cafeteria, and in the education setting. During the random interviews with both residents and staff it was reported that staffing levels are consistently maintained on each shift. The Vacca Campus Staffing Pattern document indicates direct care staff work hours are typically 8am-4pm for first shift, 4pm-12am for second shift, and 12am-8am for third shift. On the first day of the onsite audit there were a total of 22 residents assigned to the facility.

The DYS Policy and Procedures 13.8.1 indicates "annually, every DYS and contract service provider shall assess, determine, and document a staffing plan that provides adequate levels of staffing, and where feasible, provides video monitoring to protect juveniles against Sexual Abuse." The annual facility staffing assessment for the Vacca Campus was completed in March 2024 with signatures from the Campus Administrator, PREA Coordinator, Administrator of Institutional Services, and the Deputy Director of Institutional Services. Interviews with the PREA Coordinator and Campus Administrator revealed there is an annual review of the staffing plan. It was reported that information from the secure facility vulnerability assessments conducted by higher level facility staff is considered when updated the staffing assessment. A random selection of completed vulnerability assessments from 2023 for Weakley housing unit and the McNeel school were reviewed. There were no

	<p>deficiencies identified for correction in the vulnerability assessments completed.</p> <p>Informal interviews with security staff both in the school and the gatehouse revealed that head counts are conducted and reported to the gatehouse. The auditor was able to view video surveillance at the gatehouse and in the school with security staff showing how they monitor activity on campus. The Vacca Campus PREA Compliance Manager provided information to the auditor regarding 135 facility cameras operational at the facility.</p> <p>Based on the evidence reviewed and analyzed, it has been determined by the auditor that the agency Meets Standard 115.313: based on substantial compliance in all material ways with this standard for the review period.</p>

Site Review/Observations:</p>

- Observations of youth and staff in programming or on the housing unit
- Informal discussions with facility staff and residents

Analysis and triangulation of information: this standard requires facilities to prohibit cross-gender viewing and searches, except in exigent circumstances or when done by medical practitioners. The Vacca Campus PAQ completed by agency officials indicates the facility's procedure for cross-gender viewing and searches is outlined in DYS Policy and Procedures 13.8.1.

The DYS Policy 13.8.1. indicates only during exigent circumstances will cross-gender searches of all kinds be conducted by non-medical facility staff. Such searches should they occur, would be documented on the facility cross-gender searches form. The review of logs of pat-down and strip searches did not indicate any cross-gender searches of any kind by non-medical personnel.

The Vacca Campus PAQ indicated 0 cross-gender pat searches of residents, 0 cross-gender strip searches, and 0 visual body cavity searches of residents conducted by non-medical staff in the past 12 months. The PAQ also indicated that 100% of all security staff have received training on conducting cross-gender pat searches and searches of transgender and intersex residents in a professional and respectful manner, consistent with security needs.

It was revealed in random resident interviews that female staff do not conduct searches of residents. This information was consistent with interviews with random staff who indicated that while it has not happened, only in exigent circumstances would a female staff search a male resident. Staff were not aware of any transgender or intersex residents being assigned to the facility within the past 12 months. Interviews with random facility staff also revealed that facility staff do not conduct searches of transgender or intersex youth to determine their genital status. Staff also indicated they have received training on professional and respectful searches of transgender and intersex residents.

During youth interviews, majority of the residents indicated that female staff announce their presence when entering a housing unit and that residents are never viewed by female staff when they are showing, clothing, or using the restroom. During the random resident interviews none of the youth reported being searched by a female staff and that all strip searches are conducted in a private room that has no cameras. Residents reported that they are required to change in the bathroom or shower area which is in their individual rooms. Direct care staff confirmed that residents are free to shower, change clothes, and use the restroom without being viewed by staff of the opposite gender. Female staff also confirmed that they do not conduct searches of the male residents.

During the site tour, the auditor was able to view the area where all strip searches occur which was free of surveillance. Additionally, there were no cameras placed in individual rooms. The shower area in the housing units had a door and/or curtain for

	<p>privacy. No female staff were observed searching and residents during both days of the onsite audit.</p> <p>Review of training materials such as the PREA Refresher 2023 PowerPoint, had information included on cross-gender searches and communicating with transgender and intersex residents. Training records of employees, volunteers and contractors completing PREA web-based training occurred for all staff files selected for random review by the auditor.</p> <p>Based on the evidence reviewed and analyzed, it has been determined by the auditor that the agency meets Standard 115.315: based on substantial compliance in all material ways with this standard for the review period.</p>

1. Site Review/Observations:

- Observations of PREA materials displayed in housing units, cafeteria, school, gymnasium, chapel, community rooms, and staff offices

Analysis and triangulation of information: this standard requires agencies to take reasonable steps to communicate effectively to residents with disabilities or who have limited English proficiency (LEP). The Vacca Campus PAQ completed by agency officials indicated the procedures to provide disabled residents equal opportunity to participate in or benefit from all aspects of PREA are outlined in DYS Policy and Procedures 13.8.1.

DYS Policy and Procedures 13.8.1 indicates “facilities shall not rely on resident interpreters, resident readers, or other types of Juvenile assistants except in exigent circumstances where an extended delay in obtaining an effective interpreter could compromise the Juvenile’s safety, the performance of first-responder duties, or the investigation of the Juvenile’s allegation.” The Agency PREA Coordinator informed the auditor there are procedures in place to provide residents with disabilities and limited English proficiency the opportunity to participate in efforts to prevent, detect, and respond to sexual abuse and sexual harassment.

Information supplied with the Vacca Campus PAQ signified a contract with Visual Language Professional to assist residents with disabilities and those who are limited English proficient. The contract with Visual Language Professional, LLC was reviewed, and it indicated this organization would provide interpreter/translator services for three campuses to include Vacca Campus with those services being on-site, over-the-phone, video remote interpreting services and document translation services.

PREA educational materials were available in braille for residents who are blind. The Vacca PREA Compliance Manager did not report any youth at the facility who were blind during the onsite audit. Resident education material in braille was observed on the housing units. PREA education was also available in the form of a pamphlet in Spanish and was also observed in common areas of housing units during the site review. The PREA pamphlet was examined by the auditor for lower functioning residents. This pamphlet included the same-type information as in the resident PREA poster that was written in English.

During resident interviews the Vacca PREA Compliance Manager informed the auditor of two youths identified with disabilities. These residents were interviewed, and they both indicated the information provided to them on PREA was easily understood, and that staff read out all the information to them as well as provided copies. In interviews with both residents and Vacca facility staff, all reported that residents are not used as interpreters for other residents. The PAQ also indicated 0 instances where resident interpreters, readers, or other types of resident assistants were utilized.

Based on the evidence reviewed and analyzed, it has been determined by the

	auditor that the agency Meets Standard 115.316: based on substantial compliance in all material ways with this standard for the review period.

The Vacca Campus procedure for hiring and promotions of staff is outlined in DYS Policy and Procedures 13.8.1.</p> <p>DYS Policy and Procures 13.8.1 indicates in Section II (D): the agency shall “perform a criminal background records check, and consult applicable child abuse registries, before enlisting the services of any contractor who may have direct contact with juveniles. Facilities shall conduct criminal background records checks at least every four years on current employees and contractors who may have direct contact with juveniles. Facilities shall set up a spreadsheet sorted by driver’s license expiration dates, and after the initial background check, run the background check again the month after the driver’s license expires.” The policy goes further to state that “this spreadsheet shall be maintained by the facility Compliance Manager and at the first</p>

of every month an email message would be sent by each DYS operated facility to the Central Office Human Resources Office requesting a background check for the individuals needing background checks for the month.” The hire and promotions procedures outlined in the agency policy is very comprehensive and covers all the elements required of this standard.

The Vacca Campus PAQ indicated the following with respect to employees, contractors, and volunteers:

- o Number of staff currently employed at the facility who may have contact with residents = 71

- o Number of staff hired by the facility during the past 12 months who may have contact with residents = 14

- o Number of contracts in the past 12 months for services with contractors who may have contact with residents = 2

- o Number of individual contractors who have contact with residents, currently authorized to enter the facility = 18

- o Number of volunteers who have contact with residents, currently authorized to enter the facility = 17

An interview with the Human Resources representative revealed that all employees hired as well as contractors, are required to complete agency background checks. It was reported that the investigation department completes a portion of the background checks (i.e., National Crime Information Center-NCIC) and the human resources department completes the remaining portion. The human resources department initiates the request for the NCIC check to be completed by the investigation’s division. The investigation department then notifies human resources via email if persons has been cleared via the NCIC. The human resources representative initiates the DHR-FCS-1598 form for each prospective employee and again at least every five years. It was also reported during the interview with the Human Resources representative that all employees complete an annual acknowledgment form (i.e., PREA 115.317) to affirm they have not engaged in sexual abuse in a correctional facility, nor any convictions (nor civil or administrative adjudications) of engaging or attempting to engage in sexual activity in a facility or institution.

The auditor requested a copy of the Vacca Campus employee roster as well as a list of all contract staff and volunteers who may have contact with residents. Based on the rosters provided by the PREA Coordinator the auditor randomly selected 12 staff files for review that included a sample of new hires. The record of 2 employees examined did not indicate whether the employee had been fully approved via central registry clearance. The last section of the DHR-FCS 1598’s form is “to be completed by DHR,” with results of either a “substantiated report”, “no report located”, “request denied”, or “other.” The remaining files provided had all section competed on the DHR-FCS 1598 form with a finding of “no report located.”

	<p>Additionally, emails of NCIC checks and clearances were observed in the documentation provided. Further, the annual employment/appraisal questionnaire (i.e., PREA Form 117.317) was observed with staff signatures in all the records provided. Administrative files for 2 contract staff were also reviewed on site.</p> <p>During the post-audit evidence review period, Vacca Campus officials provided verification (i.e., DHR-FCS 1598) of the central registry check clearance for the 2 staff records that was incomplete during the onsite audit.</p> <p>Based on the evidence reviewed and analyzed, it has been determined by the auditor that the agency Meets Standard 115.317: based on complying in all material ways with this standard for the review period.</p>

- Vacca Campus PREA Compliance Manager
- Investigative Staff (2)
- Random Staff (13)
- Agency Chief Advocate
- Birmingham Police Department representative
- One Place Family Justice Center representative
- Children’s Hospital representative

Analysis and triangulation of information: this standard requires the agency to follow set procedures to obtain usable physical evidence for administrative proceedings and criminal prosecutions. Vacca Campus PAQ completed by agency officials indicates the procedure for evidence protocol and forensic examinations of investigations into allegations of sexual abuse is outlined in DYS Policy and Procedures 13.8.1.

The Vacca Campus PAQ indicated that sexual assault forensic exams are provided by a rape crisis center, however, there were no reported forensic exams conducted during the past 12 months. DYS provided a copy of the DOJ Office of Violence Against Women Publication, “A National Protocol for Sexual Assault Medical Forensic Examinations: Adults/Adolescents Second Edition DNA, April 2013” and the Agency PREA Coordinator indicated this protocol is followed by the agency and its contract partners that provide forensic examinations or conduct PREA-related investigations. The agency investigators indicated they are aware of the forensic protocol followed and aspects applicable to their investigation are incorporated into their work. Vacca Campus of DYS has an agreement with Birmingham Police Department (BPD) to conduct criminal investigations. The agreement indicates the BPD “will provide investigators to conduct an investigation’ and “maintain a confidential case file on

all investigations.” The BPD indicated they have not conducted a criminal investigation for the Vacca Campus during the review period and that the agreement issued in 2015 remains in place between both parties.

A copy of the contract agreement (provided during a previous agency audit) with One Place Family Justice Center was reviewed and the agreement indicates this organization will “provide sexual exams in accordance to PREA-Prison Rape Elimination Act, for DYS students who were allegedly assaulted while in DYS custody ... SANE and SAFE who has received specialized training in conducting rape victim examinations and who is certified by the federal government as having received training.” In addition to providing sexual assault exams, this contractor also provides “victim advocacy and crisis counseling” services to youth in ADYS custody. Contact was made with One Place Family Justice Center and a representative did confirm the contract with Alabama Department of Youth Services to provide SAFEs/ SANEs and victim advocate services. However, no PREA-related services were provided to Vacca Campus residents by One Place Family Justice Center during the audit review period. The ADYS agreement with Children’s Hospital (effective FY’24 thru FY’26) indicates the provider “shall accept referrals of suspected abuse and/or harassment alleged to have occurred at the facility which shall include intake screening for eligible services, scheduling a non-emergent forensic medical examination, case management and appropriate, counseling referral as deemed appropriate by the Provider.” During the site review the number for multiple victim advocate organizations were posted in common areas of the facility to include the number for Children’s Hospital. This Provider disclosed they have not received any PREA-related calls for service from the Vacca Campus during the audit review period. Additionally, the Agency Chief Advocate confirmed that an internal advocate is assigned to the Vacca Campus and this representative visits the facility weekly.

Interviews with random staff revealed they understood the agency’s protocol for obtaining usable physical evidence if a resident reported sexual abuse, and their role as a first responder of an alleged incident of sexual abuse. When asked if they were aware of any incident of sexual abuse during the past 12 months, staff did not recall such an incident for the Vacca campus.

DYS Policy and Procedures 13.8.1 indicates facility staff can also serve as victim advocates, however, they must receive training to do so with initial training being “provided through a rape crisis center or other appropriate provider using similar curriculum that is used to train their victim advocate.” Training for designated facility victim advocates is acknowledged by staff on the 115.321 Victim Advocate Receipt of PREA form. The agency victim advocate is assigned to DYS central office. While it is that DYS did not report any forensic examinations being conducted for Vacca Campus in the past 12 months, the 115.321.1 PREA Confidentiality and the DYS Victim Advocate form was provided, which identifies the role of the victim advocate, limits to confidentiality, and signatures sections for both youth and the facility victim advocate.

Based on the evidence reviewed and analyzed, it has been determined by the auditor that the agency Meets Standard 115.321: based on substantial compliance in all material ways with this standard for the review period.

The Alabama Department of Youth Services public website does have a link to a PREA policy that indicates “the special investigations unit is responsible for investigating all allegations of sexual abuse/assault/harassment.” DYS Policy and Procedures 13.8.1. includes a section for criminal and administrative investigations. Additionally, a copy of the agreement with the outside entity responsible for conducting criminal investigations was also reviewed by the auditor. The agreement with Birmingham Police Department (BPD) includes information on the responsibilities of the Vacca campus as well as that of the BPD. During the interview with the PREA Coordinator it was confirmed that an agreement is in place with the BPD to conduct criminal investigations and that the agency has internal investigators to conduct all administrative investigations.

During interviews with the Agency Investigators, they indicated there were 3 investigations into allegations of sexual abuse and/or sexual harassment in the past twelve months. These investigations were handled internally with no referrals to the BPD for any criminal investigations. The PREA Coordinator confirmed this information and reported that when an incident of sexual abuse/sexual harassment is alleged, the PREA Coordinator and the PREA Compliance Manager are notified by the Campus Administrator (or Administrator on Duty), and then the PREA Coordinator submits a referral via email to the investigation department. During the interviews with the investigators, it was disclosed they receive referrals from the PREA Coordinator via email or they are assigned investigations from the department’s administrative assistant who uploads all investigations to a departmental shared drive. The BPD confirmed the agreement in place with ADYS and also that no referrals for PREA-related criminal investigations have been initiated by their department within the past 12 months.

The Alabama Department of Youth Services public website does have a link to a PREA policy that indicates “the special investigations unit is responsible for investigating all allegations of sexual abuse/assault/harassment.” DYS Policy and Procedures 13.8.1. includes a section for criminal and administrative investigations. Additionally, a copy of the agreement with the outside entity responsible for conducting criminal investigations was also reviewed by the auditor. The agreement with BPD includes information on the responsibilities of the Vacca campus as well as that of the sheriff’s office.

Based on the evidence reviewed and analyzed, it has been determined by the auditor that the agency Meets Standard 115.322: based on complying in all material ways with this standard for the review period.

2. Interviews/Discussions with:

- Campus Administrator
- Agency PREA Coordinator
- Vacca Campus PREA Compliance Manager
- Random Staff (13)
- Medical/Mental Health Staff (3)
- Contract Staff (2)

Analysis and triangulation of information: this standard requires the agency to have proper training that is tailored to the juvenile setting, to stop sexual abuse and sexual harassment in correctional facilities. Vacca Campus PAQ completed by agency officials indicates employee training on the agency’s zero tolerance toward all forms of sexual abuse and sexual harassment is outlined in DYS Policy and Procedures 13.8.1.

The Vacca PAQ indicated there were 71 employees at the facility who may have contact with residents. Information on the PAQ also indicated that employees receive refresher training on an annual basis on PREA requirements.

Review of the PREA PowerPoint 2023 specifies the following training topics: zero tolerance, written institutional plan, shared information guidelines, juvenile rights,

	<p>protection from retaliation, dynamics of sexual abuse, common reactions of abuse victims, detecting and responding, recognizing red flags, avoiding inappropriate staff/student relationships, complying with mandatory reporting laws, laws regarding age of consent, vulnerable populations, LGBTQ youth, prohibitions related to searching transgendered or intersex students, cross-gender pat searches, what is exigent circumstances?, announcing presence of cross-gender staff persons, and first responder duties. These training topics are consistent with those required in the PREA Juvenile Facility Standards.</p> <p>The DYS Policy and Procedures 13.8.1 reveals that PREA training for all new employees is conducted during pre-service and mandatory annual training. Agency records with signed and dated “staff receipt of training” were examined for 46 employees completing classroom instruction on PREA requirements in 2023 and 2024.</p> <p>Interviews with facility staff selected at random consistently revealed that staff receive comprehensive PREA training as new hires and at least annually. Staff indicated that training is takes place in a classroom setting and online. Staff specified that training is very similar for both types of sessions and that it is tailored for the male population of residents being served at Vacca. Interviews with medical and mental health staff revealed they also have received standard and specialized training according to agency policy. Several of the medical staff also are contract staff and they confirmed receiving training specific to contract staff. The Vacca PREA Compliance Manager maintains records of facility staff, contractors, and volunteers that receive training on the agency’s zero tolerance policy, and she provided these records to the auditor for review. Training records were observed for the 5 medical and mental health staff, and 7 contractor and volunteers.</p> <p>Based on the evidence reviewed and analyzed, it has been determined by the auditor that the agency Exceeds Standard 115.331: based on substantially exceeding requirements in all material ways with this standard for the review period.</p>

2. Interviews/Discussions with:
- Agency PREA Coordinator
  - Vacca Campus PREA Compliance Manager; and
  - Volunteer/Contract Staff (3)

Analysis and triangulation of information: this standard requires volunteer or contract staff who interact with residents to be trained on their responsibilities under the agency's policies and procedures for sexual abuse and sexual harassment. The Vacca Campus PAQ completed by agency officials indicates the process for volunteer and contractor training is outlined in DYS Policy and Procedures 13.8.1.

The Vacca Campus PAQ indicated there were 18 contract staff and 17 volunteers who had contact with residents at the facility. The Pre-Audit Questionnaire also specified a total of 2 contracts in the past 12 months for services with contractors who may have contact with residents.

DYS Policy and Procedures 13.8.1 indicates volunteers and contractors will receive training on the agency's zero tolerance policy. The 115.332 Volunteer Contractor Receipt of PREA Training form includes a policy statement, definitions, prohibitions, reporting requirements, and acknowledgement of receipt of DYS Policy and Procedures 13.8.1. PREA Form 115.332 is signed annually by volunteers and contractors. A random and targeted sample of 7 training records for both volunteers and contractors had signatures of both contract/volunteer staff as well as a staff witness.

Interviews with several contract and volunteer staff revealed they have all been trained on the agency's zero tolerance policy to include their responsibilities regarding sexual abuse and sexual harassment prevention, detection, and response. Each Volunteer/ Contractor interviewed also disclosed they received a copy of the agency's zero tolerance policy. Volunteers/Contractors interviewed indicated they were not aware of any sexual abuse or sexual harassment incidents on campus in the past 12 months.

Based on the evidence reviewed and analyzed, it has been determined by the auditor that the agency Meets Standard 115.332: based on substantial compliance in all material ways with this standard for the review period.

**Auditor Discussion**

The evidence relied upon to determine compliance with this standard included:

1. Review of documentation consisting of:

- Vacca Campus Pre-Audit Questionnaire (PAQ),
- State of Alabama Department of Youth Services Prison Rape Elimination Act (PREA) Regulatory Guidelines (i.e., DYS Policy and Procedures 13.8.1),

- What Youth Should Know About Sexual Abuse and Assault flyer

2. Interviews/Discussions with:

- Agency PREA Coordinator
- Vacca Campus PREA Compliance Manager
- Random Residents (10)
- Residents with Disabilities (2)
- Intake Staff (2)

3. Site Review/Observations:

- Observations made throughout common areas of the facility
- Informal discussions with residents

Analysis and triangulation of information: this standard requires the agency to educate residents on the facility's zero tolerance policy for sexual abuse and harassment. Additionally, residents are to be taught how to report any incidents or suspicions of sexual abuse or sexual harassment. The Vacca Campus PAQ completed by agency officials indicated that resident education on PREA requirements is outlined in DYS Policy and Procedures 13.8.1.

The Vacca PAQ showed the resident population to be 25 and residents being admitted into the facility within the past 12 months. A roster provided two days prior to the onsite audit indicated 22 youth were present with information on the youth's age, race, and dorm assignment, and the youth's date of entry at the facility. The PREA orientation literature examined was very comprehensive for youth and included a resident handbook, pamphlets, bright posters, toll-free numbers for both internal and outside advocacy and support services.

A review of the juvenile receipt of PREA 115.333 forms were examined for the 22 youth assigned; with initials in both the "staff initial after reading the policy" box as well as the "juvenile initials after reading policy" box. The signed acknowledgements were consistently completed by staff and residents within 48 hours of a youth's admission to the facility.

During interviews with randomly selected residents the youth consistently reported receiving PREA education on the first day of arrival to the facility. Majority of the youth reported that staff read out the PREA information to them and provided copies of the student handbook and pamphlets with PREA resources. The resident handbook was observed in some youth rooms on the housing units. All residents were able to recall the various ways (e.g., tell staff, call the hotline, tell parents, write a grievance, report to outside agency) they can report being sexually abused, harassed, and report abuse on behalf of other residents. The youth indicated that PREA information is posted throughout the housing units and other areas on campus for them to remember the zero-tolerance policy and numbers.

During the site review the auditor was able to observe resident PREA posters/flyers, PREA pamphlets, PREA hotline numbers, outside support services numbers and addresses in some common area of all the housing units. The resident PREA posters included information on first responder duties, 5 ways to report sexual abuse (i.e., verbal, grievance, anonymously, third-party reporting, report to a private entity or Alabama Disability Advocacy Program). There were also topics on the posters that including 'help us help you,' 'you have the right to be free from sexual abuse,' 'speak out,' and 'stop assault.' Intake staff disclosed the student handbook is provided to youth in the orientation unit, and it has information on the problem of abuse, staying safe, how to report abuse, and if abuse happens what residents should do. Intake Staff also reported that resident education occurs during orientation on the first day of arrival. The auditor was able to observe a new intake on the housing unit whereby the PREA education was reviewed and discussed with

	<p>the resident. The staff person read each element on the juvenile receipt of PREA form, reviewed information from a PowerPoint on PREA with the resident, provided the resident with a copy of the handbook, and showed the resident where the PREA posters were posted on the housing unit.</p> <p>Interviews with 2 lower functioning residents revealed they have been provided information on the zero-tolerance policy in a way they could understand. These residents stated that staff read information to them from the student handbook and posters about PREA, and also provided them a copy of the information upon their first day of arrival. The PREA Compliance Manager did not report any Spanish-speaking residents to the auditor during the onsite audit; however, resident education in Spanish was provided to the auditor. PREA Pamphlet 115.333 is available to all residents. PREA Pamphlet 115.333LF is for the lower functioning residents. It was like the pamphlet provided to other residents with a few minor changes in wording and fewer pictures. The PREA Pamphlet 115.333S is for the limited English Proficient residents who speak Spanish. This pamphlet (i.e., 115.333S) was a word document with a total of 6 pages. The agency's contract with Visual Language Professionals, LLC includes the service of documentation translation. DYS Policy and Procedures 13.8.1 outlines the juvenile PREA orientation process, which is consistent with information reported by residents and specialized staff during interviews and documentation reviewed on resident education.</p> <p>Based on the evidence reviewed and analyzed, it has been determined by the auditor that the agency Exceeds Standard 115.333: based on substantially exceeding requirements in all material ways with this standard for the review period.</p>

2. Interviews/Discussions with:

- Agency PREA Coordinator,
- Vacca Campus PREA Compliance Manager, and
- Interviews with Investigators (2)

Analysis and triangulation of information: this standard requires the agency to conduct specialized training to investigative staff on conducting investigations in confinement facilities. The Vacca Campus PAQ completed by agency officials indicated that specialized training for investigators on PREA requirements is outlined in DYS Policy and Procedures 13.8.1.

The Vacca Campus PAQ denotes the agency has 3 investigators. Agency Discussion with the PREA Coordinator revealed there is a Chief Investigator and two Investigators. The training records were reviewed for all three investigators with the signed and dated PREA form 115.334 observed for all staff. Topics 16-20 of the investigator training included conducting sexual abuse investigations in confinement settings, techniques for interviewing juvenile sexual abuse victims, criteria and evidence required to substantiate a case for administrative action or prosecution referral, and proper Miranda and Garrity Warnings.

The DYS Policy and Procedures 13.8.1. specifies that in addition to general training provided to all employees, its investigators that conduct sexual abuse investigations will receive training in conducting such investigations in confinement facilities. Specialized training topics that are listed above are also included on the DYS Policy and Procedures 13.8.1 with maintenance of documentation on the PREA Form 115.334. The training records did reflect that specialized training was completed by investigative staff online by the National Institute of Corrections (NIC). The NIC training topics were "PREA: Investigating Sexual Abuse in a Confinement Setting" and one was "PREA: Investigating Sexual Abuse in a Confinement Setting-Advanced Investigations." Certificates of completion were dated for 4/5/23 for one Investigator and 4/14/23 for the other 2 investigators. Two Investigators were interviewed, and they confirmed receiving the agency PREA training on the topics identified on the signed acknowledgement PREA Form 115.334.

Based on the evidence reviewed and analyzed, it has been determined by the auditor that the agency Meets Standard 115.334: based on substantial compliance in all material ways with this standard for the review period.

- PREA Form 115.335 Medical and Mental Health Care Staff Receipt of PREA Specialized Training

2. Interviews/Discussions with:

- Agency PREA Coordinator
- Vacca Campus PREA Compliance Manager
- Medical and Mental Health Staff (3)

Analysis and triangulation of information: this standard requires all medical and mental health care practitioners employed by the agency or facility to receive specialized training. The Vacca Campus PAQ completed by agency officials indicated specialized training for medical and mental health staff on PREA requirements is outlined in DYS Policy and Procedures 13.8.1.

The Vacca Campus PAQ revealed that 100% of medical and mental health care practitioners received training required by agency policy. The 115.335 Medical and Mental Health Receipt of PREA training records were reviewed for 2 medical and 3 mental health staff. In addition to general PREA training provided to employees and contractors, specialized training topics (i.e., items 16-19 on PREA Form 115.335) for medical and mental health staff included: how to detect and respond to signs of threatened and actual sexual abuse and how to distinguish between consensual sexual contact and sexual abuse between juveniles, how to preserve physical evidence of sexual abuse, how to respond effectively and professionally to juvenile victims of sexual abuse and sexual harassment, and how and to whom to report allegations of suspicion of sexual abuse and sexual harassment. Specialized training by medical and mental health staff was completed online and presented by the National Institute of Corrections and titled "PREA 201 for Medical and Mental Health Practitioners."

DYS Policy and Procedures 13.8.1 outlines training for medical and mental health staff. The policy indicates that "facilities shall ensure that all full and part-time medical and mental health care practitioners who work regularly in its facilities are

	<p>trained” in the specialized topic items 16-20 listed above. The PREA Coordinator informed the auditor that majority of the medical staff are contractors; however, the mental health staff are primarily agency employees.</p> <p>Interviews with both facility mental health staff and medical staff revealed that both standard agency training on PREA requirements had been received as well as specialized training on the topics identified above. Medical personnel indicated that while health services are offered onsite, forensic examinations take place off site at the Children’s Hospital.</p> <p>Based on the evidence reviewed and analyzed, it has been determined by the auditor that the agency Meets Standard 115.335: based on complying in all material ways with this standard for the review period.</p>

Analysis and triangulation of information: this standard requires the agency to gather and use information about each resident's personal history and behavior to lower their risk of being a victim of sexual abuse or being sexually abusive. The Vacca Campus PAQ completed by agency officials indicated the process for obtaining information from residents is outlined in DYS Policy and Procedures 13.8.1.

The DYS Policy and Procedures 13.8.1 specifies the screening for risk of sexual victimization and abusiveness takes place within 24 hours of a resident's admission to the facility. Additionally, the policy also indicates that a PREA risk assessment is completed "periodically, at least every (6) months throughout their confinement or when warranted due to a referral..." The procedure requires documenting the initial screening, reassessment or 6-month reassessment on the PREA Form 115.341. The reassessment assessment according to the policy can be completed on the PREA Form 115.341.1. Youth at risk for victimization or abusiveness are to be reassessed within 30 days of arrival. These youth are also offered follow-up meetings with medical or mental health practitioners within 14 days of the intake screening, according to the policy. The PREA Form 115.341 includes all the information from the residents that are required by this standard. The PREA Form 115.341.2 serves as the facility's guidelines for shared PREA information to ensure staff or other residents do not exploit sensitive information about a juvenile. The form indicates that failure to adhere to guidelines shall result in progressive discipline action. Intake and mental health staff interviewed acknowledged receiving and complying with the guidelines for shared PREA information.

Informal interviews with Vacca intake staff and mental health during the site review occurred. Mental health and medical staff indicated that all youth are screened for sexual abuse by qualified mental health staff the first day of arrival. Formal interviews with mental health staff responsible for conducting the risk screenings took place as well as interviews with residents selected at random. During the onsite audit, no youth were present that reported prior victimization nor were there any youth who reported being gay or bisexual. All residents interviewed reported the day of arrival they are asked questions about whether they had ever been sexually abused, whether they identify as gay, bisexual, transgender, and have any disabilities. Several of the youth interviewed did not recall if the same questions were asked a second time. The DYS Policy and Procedures 13.8.1. indicates that "also, periodically, at least every (6) six months throughout their confinement or when warranted due to a referral, request, incident of Sexual Abuse, or receipt of additional information that bears on the Juvenile's risk of Sexual Victimization or abusiveness, PREA Form 115.341.1. PREA Risk Reassessment shall be completed." A staffer that performs screening for risk of victimization and abusiveness stated that any youth identified as a risk for victimization or abuse are reassessed by their case manager at least every six months.

A random selection of 15 resident intake records were reviewed with a completed PREA Form 115.341 in the file maintained in the case managers office. Upon

	<p>completion of the intake screening a copy of the completed form is provided to the Vacca Campus PREA Compliance Manager. Six additional files were selected for the six-month reassessment. No deficiencies were observed with the records received and examined.</p> <p>Based on the evidence reviewed and analyzed, it has been determined by the auditor that the agency Meets Standard 115.341: based on substantial compliance in all material ways with this standard for the review period.</p>

	<p>The evidence relied upon to determine compliance with this standard included:</p> <p>1. Review of documentation consisting of:</p> <ul style="list-style-type: none"> <li>· Vacca Campus Pre-Audit Questionnaire (PAQ),</li> <li>· State of Alabama Department of Youth Services Prison Rape Elimination Act (PREA) Regulatory Guidelines (i.e., DYS Policy and Procedures 13.8.1),</li> <li>· PREA Form 115.341 Intake Screening, and</li> <li>· PREA Form 115.341.2 Guidelines for Shared PREA Information,</li> <li>· PREA Form 115.342 Housing Unit Placement, and</li> <li>· PREA Form 115.342.1 Isolation Activity Log</li> <li>· Unit logbooks</li> </ul> <p>2. Site Review/Observations:</p> <ul style="list-style-type: none"> <li>· Observations of timeout rooms</li> <li>· Informal interview with staff supervising residents in isolation/timeout</li> </ul>

Analysis and triangulation of information: this standard requires the agency to use information obtained from the intake screening to make housing, bed, program, education, and work assignments for residents. Vacca Campus PAQ completed by agency officials indicated the procedure for placement of residents in housing, bed, program, education, and work assignments is outlined in DYS Policy and Procedures 13.8.1.

Vacca Campus officials provided the following responses on the Pre-Audit Questionnaire with respect to use of screening information in the past 12 months:

- o The number of residents at risk for sexual victimization who were placed in isolation = 0

- o The number of residents at risk for sexual victimization who were placed in isolation who have been denied access to large muscle exercise, and/or legally required education or special education services = 0

The DYS Policy and Procedures 13.8.1 denotes the decision to place youth in special housing is documented on the PREA Form 115.342 Housing Unit Placement. Additionally, juveniles held in isolation because of risk of victimization shall have a case review every 30 days and the PREA Form 115.342.1 is the log used to document isolation activity of all youth. Services must be inclusive of education, large muscle activity, and visits from medical/mental health/administrative staff. Both the housing unit placement forms completed as well as the isolation activity logs are signed by a staff person and the Campus Administrator. The process and sign offs for housing assignments and isolation was confirmed by the Vacca Campus Administrator.

The Vacca PREA Compliance Manager informed the auditor no current youth that reported prior sexual victimization during their risk screening nor disclosed being gay during the intake screening. The Vacca PREA Compliance Manager did not report any transgender or intersex youth being assigned to the facility within the past 12 months.

During the site review the auditor visited the housing unit that had youth in their rooms during waking hours. While there were no youth in isolation due to sexual victimization or sexual abuse; the auditor did conduct informal interviews with 2 youth who had been placed in isolation for non-PREA- related reasons. The auditor was informed during informal interview with the youth that had been placed in isolation, they were afforded large muscle exercise, education services, and were seen daily by medical and mental health staff on that day. Staff that supervise youth in isolation confirmed that youth in confinement receive daily services and that the activity log is signed by education, medical/mental health, and administrative staff that come visit youth in isolation for any reason. During the site review the auditor had informal discussion with medical and mental health staff that youth in isolation are visited on each shift.

Based on the evidence reviewed and analyzed, it has been determined by the

	auditor that the agency Meets Standard 115.342: based on substantial compliance in all material ways with this standard for the review period.

### 3. Site Review/Observations:

- Observations made on housing units and other areas of programming Informal discussions with facility staff and residents

Analysis and triangulation of information: this standard requires the agency to provide several internal ways for residents to privately report sexual abuse or sexual harassment, and at least one way to report abuse or harassment to a body that is not part of the agency. The Vacca Campus PAQ completed by agency officials indicated the process for resident reporting is outlined in DYS Policy and Procedures 13.8.1.

The DYS Policy and Procedures 13.8.1 denotes that residents can make reports to staff, to the DYS advocacy representative or the agency PREA sexual assault hotline. Residents can also make reports using the DYS Form 1.28 Juvenile Grievance or contact public or private entities outside the agency such as rape crisis center (i.e., One Place Family Justice Center) or the Alabama Disabilities Advocacy Program (ADAP). Residents detained solely for civil immigration purposes have a number to contact the Alabama Department of Homeland Security. The Vacca student handbook was examined, and pages 9-11 has detailed information on PREA to include definitions and ways to report sexual abuse and consequences for violating facility rules.

Phone numbers for both internal and external reporting entities were observed during the site review on flyers posted throughout the facility in common areas frequented by residents. The address of ADAP was also included on several postings throughout the campus. Grievance forms and secure boxes were observed on housing units during the site review. The auditor contacted each number on the flyers posted for resident reporting and did not encounter any connection issues. The Agency PREA Coordinator receives all the PREA sexual assault hotline calls via a cell phone that was on her person during the site review. The phones used on the housing units to make PREA hotline calls were located in staff offices. The Vacca PREA Compliance Manager stated residents can make confidential calls with their case managers if they did not feel comfortable asking direct care staff to make a hotline call and they can also go into the staff office for confidential calls to the PREA hotline or outside support entities.

Interviews with residents selected at random revealed they were well-versed on the multiple reporting mechanisms in place to privately report sexual abuse, sexual harassment, and retaliation for reporting PREA incidents. Facility staff were knowledgeable on the ways in which residents could privately report sexual abuse or sexual harassment as well as the ways in which facility staff could do the same. During the random staff interviews it was consistently reported that if a youth

	<p>makes a verbal report of abuse or harassment, staff will document the allegation on a written report and submit it no later than the end of their current shift. Staff confirmed that written reports are documented on the critical incident report forms (i.e., DYS 100.1, DYS Form 812, and DHR-FCS-1593).</p> <p>During the site review on day one of the onsite audit, the Auditor observed very few PREA posters in the McNeel School and it was recommended that additional posters be placed in these areas. The PREA Compliance Manager added additional PREA posters to recommended areas and during day two of the onsite audit, the auditor conducted a follow-up site review and observed additional PREA posters in the school.</p> <p>Based on the evidence reviewed and analyzed, it has been determined by the auditor that the agency Meets Standard 115.351: based on substantial compliance in all material ways with this standard for the review period.</p>

### 3. Site Review/Observations:

- Observations on housing units of grievance boxes and forms

Analysis and triangulation of information: this standard requires agencies to have procedures for administrative remedies (i.e., grievances) by residents who allege sexual abuse, or by the parents or legal guardians of juvenile residents. The Vacca Campus PAQ completed by agency officials indicated exhaustion of administrative remedies is outlined in DYS Policy and Procedures 13.8.1.

Vacca Campus officials provided the following responses on the Pre-Audit Questionnaire with respect to administrative remedies in the past 12 months:

- o The number of grievances that were filed that alleged sexual abuse = 0
- o The number of grievances alleging sexual abuse that reached final decision within 90 days after being filed = 0
- o The number of grievances alleging sexual abuse that involved extensions because final decision was not reached within 90 days = 0
- o The number of emergency grievances alleging substantial risk of imminent sexual abuse filed = 0

The DYS Policy and Procedures 13.8.1 does reference grievance procedures to address sexual abuse. However, the information provided refers readers to "DYS Policy 1.28, page 7, Section E (Juvenile Grievance Process). The DYS Policy 1.13 denotes the facility has an advocacy representative and a chief advocate who oversees the entire grievance system along with appeals. All priority grievances are responded to within 48 hours. The DYS Policy 1.13 also indicates that in the event a grievance is against the campus administrator or program director, grievances are addressed by the office of chief advocate in the executive suite.

The Agency PREA Coordinator informed the auditor that DYS Policy 1.13 and not DYS Policy 1.28 relates to the Juvenile Grievance Process. The Agency PREA Coordinator stated there is no time limit on when a grievance can be filed. Youth interviewed at random all indicated that filing a grievance is one of the confidential ways to report sexual abuse and/or sexual harassment at the facility. During the site review the auditor observed secure grievance boxes and forms on the housing unit that were occupied by residents.

The Agency Chief Advocate reported there were 3 PREA-related grievances filed during the review period. Review of the investigations files also identified the

	<p>method of disclosure for alleged sexual abuse and/or harassment to be via the formal grievance system. The discrepancy of the information on the PAQ was resolved during follow-up discussion with the PREA Compliance Manager and Agency PREA Coordinator. During random resident interviews, no youth reported filing any grievances related to sexual abuse or sexual harassment during the review period.</p> <p>Based on the evidence reviewed and analyzed, it has been determined by the auditor that the agency Meets Standard 115.352: based on substantial compliance in all material ways with this standard for the review period.</p>

Site Review/Observations: <ul style="list-style-type: none"> <li>· Observations made on housing units and other areas of programming</li> </ul> </li> </ol>

Analysis and triangulation of information: this standard requires the agency provide residents with access to outside victim advocates for emotional support services related to sexual abuse. The Vacca Campus PAQ completed by agency officials indicated the process for resident access to outside support services and legal representation is outlined in DYS Policy and Procedures 13.8.1.

DYS Policy and Procedures 13.8.1 was reviewed and it showed that juveniles have access to “ADAP or to the other MOU Rape Crisis Center that is not a part of the facility.” The contract with One Place Family Justice Center was reviewed and services encompass victim advocates providing support services for sexual abuse. Alabama Disabilities Advocacy Program (ADAP) provides treatment and services for victims of abuse and neglect and this information is displayed on the posters on campus. Additionally, the agreement with Children’s Hospital indicates the Provider will also offer counseling services to DYS youth in custody as needed for PREA-related incidents.

During the site review the phone numbers of three (3) outside support services were observed in common areas of the campus that are frequented by residents. In addition to toll-free hotline numbers, a mailing address was included for one of the outside support service providers. One of the outside support services was for juveniles detained solely for Civil Immigration purposes. The auditor called the numbers for each of the outside support services and was able to speak with a live operator.

It was revealed during random interviews with residents that youth are permitted to talk with their lawyer privately as well as their probation officers. All residents reported they can speak with their parents/guardians upon arrival and prior to completing the program. Residents also reported they are permitted to have visits with their parents/guardians twice per month. Youth also reported they can have confidential meetings with their attorney if needed. The Vacca Campus Administrator and PREA Compliance Manager both confirmed that visitation that outside support services are available through both informal and formal agreements and that youth are permitted to speak with parents/guardians via phone; and family visits occur regularly for residents.

Based on the evidence reviewed and analyzed, it has been determined by the auditor that the agency Meets Standard 115.353: based on substantial compliance in all material ways with this standard for the review period.

The evidence relied upon to determine compliance with this standard included:

1. Review of documentation consisting of:

- Vacca Campus Pre-Audit Questionnaire (PAQ),
- State of Alabama Department of Youth Services Prison Rape Elimination Act (PREA) Regulatory Guidelines (i.e., DYS Policy and Procedures 13.8.1),
- DYS Form 115.354 Third-Party Reporting,
- Prison Rape Elimination Act Webpage docx.,
- PREA Resident Posters (both English and Spanish), and
- Document labeled "Important Numbers for Juveniles to Know to Report Sexual Abuse"

2. Interviews/Discussions with:

- Agency PREA Coordinator
- Vacca Campus PREA Compliance Manager
- Random Residents (10)

3. Site Review/Observations:

- Observations made on housing units and other areas of programming
- Review of the agency website

Analysis and triangulation of information: this standard requires the agency to allow for someone other than the victim of sexual abuse and harassment to report such incidents. The Vacca Campus PAQ completed by agency officials indicated that third-party reporting is outlined in DYS Policy and Procedures 13.8.1.

DYS Policy and Procedures 13.8.1 denotes that third-party reporting is available via its PREA Form 115.354 Third-Party Reporting. This form is accessible to facility staff and individuals outside the facility on the agency website in the PREA section. Instructions included on the form directs individuals to email or mail the completed form to the DYS PREA Coordinator at an address provided on the form. The auditor was able to view and print a copy of the third-party reporting form directly from the DYS website. The Agency PREA Coordinator did not disclosed receiving any third-party reports in the past 12 months regarding sexual abuse and sexual harassment at the Vacca campus.

Residents were asked during formal interviews if they were permitted to make reports on behalf of other residents about sexual abuse and harassment and the youth indicated they are permitted to do so. They also indicated that someone else

	<p>can file a report on their behalf of sexual abuse or sexual harassment experienced at the facility. During the site review, the resident PREA Poster observed in housing units lists “Third-Party Reporting” as one of the five ways to report sexual abuse and sexual harassment.</p> <p>Based on the evidence reviewed and analyzed, it has been determined by the auditor that the agency Meets Standard 115.354: based on substantial compliance in all material ways with this standard for the review period.</p>

- Random Staff (13)
- Agency Chief Advocate

Analysis and triangulation of information: this standard requires agency compliance with child abuse reporting laws as well as staff knowing how to properly report sexual abuse and sexual harassment to supervisory officials and to state or local services, while also protecting the alleged victim's privacy. Additionally, this standard requires facility management to report allegation of sexual abuse to the appropriate agency office, the alleged victim's parent or legal guardian and legal representative. The Vacca Campus PAQ indicates that staff and agency reporting duties are outlined in DYS Policy and Procedures 13.8.1.

In the interviews with random staff each of them reported that all staff are required by policy to report knowledge, suspicion, or information regarding sexual abuse and sexual harassment up the chain of command. This requirement is outlined in DYS Policy and Procedures 13.8.1. The procedure per the policy includes staff reporting to their supervisor, and then the supervisor reporting it to the campus administrator. The staff first responder initiates the DYS Form 8.12 Critical Incident Report. If indicated, the DYS Form 13.16 Child Abuse Reporting is also initiated. The Investigation, and Programs and Client Services/Community Services departments are all notified by the PREA Coordinator. According to DYS Policy and Procedures 13.8.1 the DYS Special Investigations Unit (SIU) determines if the allegation is credible and if so, notifications are also made to parents/guardian/CPS workers, attorneys, and the juvenile court within 14 of receipt of the allegation. The Vacca Campus Administrator confirmed staff reporting requirements, that she is notified of all critical incidents, and she in turn makes notification to the Agency PREA Coordinator. The Agency PREA Coordinator indicated that she makes notifications to the investigators as well other agency leaders. The Vacca Campus Administrator reported that the case managers are the designated representatives to notify the alleged victim's parents/ guardians and legal representatives regarding sexual abuse allegations. The case managers are also designated persons responsible for conducting retaliation monitoring at the facility. All the random staff selected for interview did not report any knowledge, suspicion, or information regarding sexual abuse and sexual harassment within the past 12 months. One teacher interviewed did report an incident that occurred in his classroom involving alleged sexual misconduct and that protocols were followed to include an investigation by the agency investigative staff.

A google search of the Alabama mandatory reporting laws was conducted by the auditor. The Alabama Department of Child Abuse & Neglect Prevention signifies mandatory reporters as "teachers, child day care center operators, mental health professionals, and who have children in their care for long periods of time or in

	<p>counseling situations.” Interviews with medical and mental health staff revealed that residents are informed of limitations of confidentiality and duty to report PREA-related incidents to supervisors. None of the medical and mental health staff or random staff interviewed indicated that a youth has reported an allegation of sexual abuse or sexual harassment to them within the past 12 months. The Vacca PREA Compliance Manager provided the auditor with a copy of all forms that are applicable to this standard.</p> <p>Based on the evidence reviewed and analyzed, it has been determined by the auditor that the agency Meets Standard 115.361: based on substantial compliance in all material ways with this standard for the review period.</p>

	<b>Auditor Discussion</b>
	<p>The evidence relied upon to determine compliance with this standard included:</p> <p>1. Review of documentation consisting of:</p> <ul style="list-style-type: none"> <li>· Vacca Campus Pre-Audit Questionnaire (PAQ),</li> <li>· State of Alabama Department of Youth Services Prison Rape Elimination Act (PREA) Regulatory Guidelines (i.e., DYS Policy and Procedures 13.8.1); and</li> <li>· PREA Form 115.363 Reporting to Other Confinement Facilities</li> </ul> <p>2. Interviews/Discussions with:</p> <ul style="list-style-type: none"> <li>· Campus Administrator</li> <li>· Agency PREA Coordinator</li> <li>· Vacca Campus PREA Compliance Manager</li> <li>· Agency Head/Executive Director (Designee)</li> <li>· Investigative Staff (2)</li> </ul>

Analysis and triangulation of information: this standard requires the facility to report allegations of resident abuse that occurred at another facility by notifying the head of the other facility as soon as possible so that an investigation can begin. The Vacca Campus PAQ indicates that reporting PREA incidents to other confinement facilities is outlined in DYS Policy and Procedures 13.8.1.

The Vacca Campus PAQ indicated there were 0 “allegations of sexual abuse the facility received from other facilities within the past 12 months.” The Vacca Campus PAQ also indicated there were 0 “allegations the facility received that a resident was abused while confined at another facility.” The DYS Policy 13.8.1 indicates that “upon receiving an allegation that a Juvenile was Sexually Abused while confined at another Facility, the head of the Facility that received the allegation shall notify the head of the Facility or appropriate office of the Facility where the alleged abuse occurred and shall also notify the appropriate investigative Agency, using PREA Form 115.363 Reporting to Other Confinement Facilities.” The policy goes further to state that notification must be made “no later than 72 hours after receiving the allegation.” The receiving facility administrator must ensure that the allegation is investigated in accordance with the PREA standards and the “outcome of the investigation shall be provided to the Facility that initiated the allegation from the Juvenile.”

During the interview with the Agency Head's designee, it was reported there were no sexual abuse or sexual harassment incidents reported from another confinement facility to the executive office in the past 12 months. In the event such a report is received, the point of contact would be the Agency PREA Coordinator, who would ensure that the investigation division is notified, and an investigation occurs as per the agency policy. The Agency PREA Coordinator and Vacca Campus Administrator both indicated that all allegations of sexual abuse and sexual harassment at the Vacca campus, are referred for a prompt investigation, to include reports that come from another confinement facility. The Vacca Campus Administrator would notify the Agency PREA Coordinator and Vacca PREA Compliance Manager of such reports received and the Agency PREA Coordinator would refer the allegation to the investigations division. The investigative staff reported they are responsible for investigating sexual abuse allegations of both state-operated and contract residential programs. Investigators are promptly notified of allegations and initiates investigations in accordance with DYS Policy and Procedures 13.8.1.

During discussions with the Agency PREA Coordinator & Agency PREA Compliance Manager it was revealed that within the past 12 months, Vacca Campus did receive 0 allegation that a resident was abused while confined at another facility.

Based on the evidence reviewed and analyzed, it has been determined by the auditor that the agency Meets Standard 115.363: based on substantial compliance in all material ways with this standard for the review period.

Policy and Procedures 13.8.1.

The Vacca Campus PAQ completed by agency officials indicated there were 0 allegations that a resident was sexually abused in the past 12 months. DYS Policy 13.8.1 denotes that staff first responders are required to separate alleged victims and abusers, preserve evidence, and report up the chain of command. Training material reviewed (i.e., PREA PowerPoint 2023) also includes information on slides 36-37 about the duties of first responders. PREA Form 115.364.1 has twenty (20) detailed guidelines to follow in the event sexual abuse occurs. Additionally, PREA Form 115.364 is the actual checklist for first responders to follow. The checklist includes details on separating the alleged victim from the aggressor, securing the location, immediate notification of the unit manager who notifies the campus administrator/ administrator on duty (AOD), who in-turn contacts the special investigations unit. Further, referral for medical assessment and taking notes on what is shared, and by whom is documented by the first responder. The PREA Form 115.371 is a flow chart of the process for investigating sexual assault allegations and the process flow begins with 'juvenile allegations of sexual assault discovered/ reported to first responders.'

The Vacca PREA Compliance Manager and Campus Administrator indicated that all facility staff are trained as first responders. During random interviews with staff, each person could articulate their duties as a first responder, however, none of the staff reported they had to serve in this capacity in the past 12 months. The Vacca Campus PAQ also indicated there were 0 instances of non-security staff acting as first responders to allegations that a resident was sexually abused in the past 12 months. Since it was reported that all facility staff are trained as first responders, several staff were interviewed and all were able to articulate their duties of separating the alleged victim and abuser, securing the crime scene to protect any evidence until the proper steps can be taken to collect it. When asked how evidence is protected, staff first responders provided examples such as not allowing the alleged victim and abuser to brush their teeth, change clothes, take a shower, use the restroom, or eat.

During the random resident interviews all youth reported feeling safe at the facility and did not disclose any sexual abuse or sexual harassment incidents during the review period. Additionally, none of the youth selected at random disclosed reporting prior victimization during the intake process or at any point during the placement period.

Discussions with investigative staff and review of investigative files revealed 3 alleged sexual misconduct incidents in the past 12 months. The incidents were related to alleged sexual harassment incidents involving staff on youth as well as youth on youth. The allegations were disclosed in grievances written by residents. Protocols were followed with respect to first responder duties related to all three incidents.

Based on the evidence reviewed and analyzed, it has been determined by the auditor that the agency Meets Standard 115.364: based on substantial compliance in all material ways with this standard for the review period.

The Vacca Campus Coordinated Response document was reviewed, and it details the roles and responsibilities of agency and facility officials from different disciplines with respect to a coordinated and efficient response to victims of sexual abuse. - Vacca Campus PREA Compliance Manager
- Agency Head (designee)
- Investigative Staff (2)
- Case Manager

Analysis and triangulation of information: this standard requires the agency to protect residents and staff from retaliation coming from other residents and staff. The Vacca Campus PAQ indicates the agency's procedure for protection against retaliation is outlined in DYS Policy and Procedures 13.8.1.

The PAQ completed by agency officials indicated there were 0 residents in isolation as a measure to protect them from sexual abuse or sexual harassment in the past 12 months. Additionally, the Vacca Campus PAQ indicated there were 0 incidents of retaliation in the past 12 months resulting from a report of sexual abuse or sexual harassment. Further, the Vacca PAQ states that retaliation monitoring takes place for a 90-day period. The DYS Policy and Procedures 13.8.1 denotes "for at least 90 days following a report of Sexual Abuse" the Campus Administrator will designate which staff members are charged with monitoring retaliation.

The case managers are responsible for monitoring retaliation of PREA allegations for youth and the Vacca Campus Administrator is responsible for monitoring it for staff. Examples provided as to how residents are protected from retaliation include monitoring resident behavior management levels, housing and programming changes, as well as checking in with the resident periodically throughout a 90-day period. Retaliation monitoring records were observed during the onsite portion of the audit for the two sexual misconduct incidents reported by residents in filed grievances. The case manager responsible for monitoring retaliation for these two incidents was interviewed and she disclosed the process followed that was consistent with the agency policy. The youth involved in the alleged sexual misconduct incidents were no longer assigned to the facility during the onsite portion of the audit; therefore, interviews did not occur with these individuals. Retaliation is monitored for staff by reviewing performance reviews, disciplinary reports, and transfers to other locations. The DYS Policy and Procedures 13.8.1 states that 90 days of the initial monitoring can be extended if the initial monitoring "indicates a continued need." During previous discussion with the Agency Head he confirmed that the zero-tolerance policy does outline measures that are in place to protect staff and residents against retaliation. The PREA Form 115.367 has sections that include 13 weeks of monitoring any occurrences of retaliation with comments, as well as information on whether there is a continued need for retaliation monitoring.

DYS Policy and Procedures 13.8.1 indicates "the facility shall employ multiple protective measures, such as housing changes or transfers for Juvenile victims or abusers, removal of alleged staff or Juvenile abusers from contact with victims, and

	<p>emotional support services for juveniles or staff that fear retaliation for reporting Sexual Abuse or Sexual Harassment or for cooperating with investigations.”</p> <p>During interviews with residents selected at random, no resident disclosed that he reported any allegations of sexual abuse to staff during the past 12 months. Review of investigative files for 4 alleged sexual misconduct incidents involving staff and youth as well as youth on youth took place; three of which occurred during the audit review period. Agency investigators confirmed during interviews the 3 PREA-related incidents that occurred during the audit review period.</p> <p>Based on the evidence reviewed and analyzed, it has been determined by the auditor that the agency Meets Standard 115.367: based on substantial compliance in all material ways with this standard for the review period.</p>

<b>115.368</b>	<b>Post-allegation protective custody</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<b>Auditor Discussion</b>
	<p>The evidence relied upon to determine compliance with this standard included:</p> <p>1. Review of documentation consisting of:</p> <ul style="list-style-type: none"> <li>· Vacca Campus Pre-Audit Questionnaire (PAQ),</li> <li>· State of Alabama Department of Youth Services Prison Rape Elimination Act (PREA) Regulatory Guidelines (i.e., DYS Policy and Procedures 13.8.1),</li> <li>· PREA Form 115.342.1 Isolation Activity Log, and</li> <li>· Unit Logbooks</li> </ul> <p>2. Site Review/Observations:</p> <ul style="list-style-type: none"> <li>· Observations of timeout rooms</li> <li>· Informal interview with staff that supervise residents in isolation</li> </ul>

Analysis and triangulation of information: this standard relates to requirements of protective custody if a resident who is alleged to have suffered sexual abuse is placed in segregated housing for protection. The Vacca Campus PAQ indicates the agency's procedure for post-allegation protective custody is outlined in DYS Policy and Procedures 13.8.1.

The PAQ completed by Vacca officials indicated 0 instances within the past 12 months of residents being at risk for sexual victimization and 0 occurrences of residents being placed in isolation due to suffering sexual abuse. The DYS Policy and Procedures 13.8.1 indicates that "Juveniles at risk of sexual victimization, or those juveniles alleging sexual assault may be isolated from others only as a last resort when less restrictive measures are inadequate to keep them and other juveniles safe, and then only until an alternative means of keeping all juveniles safe can be arranged." When residents are placed in isolation as a protective measure, the PREA Form 115.342.1 is completed, which documents daily large-muscle exercise and any legally required educational programming or special education services.

The Vacca Campus Administrator and PREA Compliance Manager did not recall any instances of a youth being placed in timeout or isolation as a result of suffering sexual abuse in the past 12 months. She stated such protective measures would only be used as a last resort after exhausting all less restrictive measures. During interviews with medical and mental health staff it was reported that youth in isolation are visited daily, and visits are documented in logbooks or on the PREA Form 115.342.1.

The Vacca PREA Compliance Manager disclosed on day one of the onsite audit, there were no residents in timeout/isolation due to protections against sexual abuse or sexual harassment. During the site review, the auditor did visit housing units that had timeout rooms which was an empty room with surveillance. Informal interviews with staff that supervise residents in timeout/isolation revealed that youth are afforded programming and services daily and that medical and mental health, as well as administrators on duty visit units with residents in isolation and document those visits.

Based on the evidence reviewed and analyzed, it has been determined by the auditor that the agency Meets Standard 115.368: based on substantial compliance in all material ways with this standard for the review period.

<b>115.371</b>	<b>Criminal and administrative agency investigations</b>

	The evidence relied upon to determine compliance with this standard included:

1. Review of documentation consisting of:

- Vacca Campus Pre-Audit Questionnaire (PAQ),
- State of Alabama Department of Youth Services Prison Rape Elimination Act (PREA) Regulatory Guidelines (i.e., DYS Policy and Procedures 13.8.1),
- PREA Form 115.371.1 Investigative Outcome of Allegations of Sexual Abuse and Sexual Harassment,
- Administrative Investigative Files, and
- Vacca Campus Compliance Manager records

2. Interviews/Discussions with:

- Agency PREA Coordinator
- Vacca Campus PREA Compliance Manager
- Campus Administrator
- Investigative Staff (2)

Analysis and triangulation of information: this standard requires that all allegations of sexual abuse and sexual harassment be promptly investigated through an objective investigation. The Vacca Campus PAQ completed by agency officials indicates the facility's procedure for criminal and investigative agency investigations are outlined in DYS Policy and Procedures 13.8.1.

Department of Youth Services (DYS) Policy and Procedures 13.8.1 specifies that Alabama Department of Youth Services "has a Special Investigation Unit (SIU) that is responsible for investigating all allegations of Sexual Abuse (Assault), Sexual Harassment, or any Sexual Conduct that is alleged in DYS operated facilities following a uniform evidence protocol that maximizes the potential for obtaining usable physical evidence for administrative proceedings and criminal prosecutions." The policy goes on to state that "at the conclusion of all PREA investigations, the investigator shall complete PREA Form 115.371.1 Investigative Outcomes of Allegations of Sexual Abuse or Sexual Harassment and submit it to the facility PREA compliance monitor for processing with the juvenile."

The Vacca Campus PAQ completed by agency officials prior to the onsite audit indicated there are 3 investigators employed with the responsibility of conducting administrative and criminal investigations into allegations of sexual abuse or sexual harassment. The Vacca Campus PAQ also denotes the local police department is an external entity responsible for criminal investigations. Below are responses provided by agency officials on the Vacca Campus PAQ with respect to allegations of sexual abuse and sexual harassment within the past 12 months:

	<ul style="list-style-type: none"> <li>o The number of allegations of sexual abuse and sexual harassment that were received = 0</li> <li>o The number of allegations resulting in an administrative investigation = 0</li> <li>o Referring to allegations received, all administrative and/or criminal investigations that were completed = 0</li> <li>o Number of substantiated allegations of conduct that appear to be criminal that were referred for prosecution since August 20, 2012, or since the past PREA audit = 0</li> </ul> <p>In the interviews with the Investigative staff, they indicated there were 3 allegations of sexual abuse or sexual harassment received or investigated during the audit review period for the Vacca Campus. This information shared was consistent with what was documented on the Pre-Audit Questionnaire as well as the discussions with the Agency PREA Coordinator and PREA Compliance Manager. The Agency PREA Coordinator informed the auditor there is a Chief Investigator and two Special Investigators that report to the chief. During random staff and random resident interviews there were no reports of sexual abuse or sexual harassment disclosed to the auditor. One teacher did disclose that he was interviewed by investigators of an alleged sexual harassment incident that occurred in his classroom. Review of the investigative files revealed that proper protocols for investigation were followed and all supporting documentation was included in the official record according to the agency PREA policy. Upon notice of alleged sexual misconduct incidents the grievance advocate notified her chain of command to include local and agency officials. The youth involved in two of the incidents were assigned to the same housing unit; however, they were already in individual rooms and were monitored closely by staff following knowledge of the sexual harassment incidents. The investigators interviewed both staff and residents as well as reviewed video surveillance to corroborate information provided during the interviews and written on the grievance forms. Investigators came to an outcome on the incidents and notifications were made to residents involved in the incidents of the outcome of the investigation. Information in the investigative files were triangulated with discussions with investigative staff as well as agency and Vacca staff.</p> <p>Based on the evidence reviewed and analyzed, it has been determined by the auditor that the agency Meets Standard 115.371: based on substantial compliance in all material ways with this standard for the review period.</p>

<b>115.373</b>	<b>Reporting to residents</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<b>Auditor Discussion</b>

The evidence relied upon to determine compliance with this standard included:

1. Review of documentation consisting of:

- Vacca Campus Pre-Audit Questionnaire (PAQ),
- State of Alabama Department of Youth Services Prison Rape Elimination Act (PREA) Regulatory Guidelines (i.e., DYS Policy and Procedures 13.8.1),
- PREA Form 115.371 Process for Investigating Sexual Assault,
- PREA Form 115.371.1 Investigative Outcomes of Allegations of Sexual Abuse or Sexual Harassment, and
- 115.373 Juvenile Notification of Investigation Outcome,

2. Interviews/Discussions with:

- Agency PREA Coordinator
- Vacca Campus PREA Compliance Manager
- Investigative Staff (2)

Analysis and triangulation of information: this standard requires that after an investigation into allegations of sexual abuse, the agency must tell the resident whether the allegation has been determined to be substantiated, unsubstantiated or unfounded. The Vacca Campus PAQ indicates the facility's procedure for resident reporting is outlined in DYS Policy and Procedures 13.8.1.

DYS Policy and Procedures 13.8.1 states "Juveniles who have been the victim of a Sexual Abuse and Sexual Harassment shall receive notification of determined outcomes documented using PREA Form 115.373 Juvenile Notification of Investigative Outcome. The Juvenile notification of Investigative Outcome shall be submitted to the facility PREA compliance monitor, who will share the outcome with the juvenile, obtaining his signature as proof of receipt, before the form is placed in the juvenile's administrative file as documentation of the notification."

DYS officials provided the following responses on the Vacca Campus Pre-Audit Questionnaire with respect to reporting to residents within the past 12 months:

- o The number of criminal and/or administrative investigations of alleged resident sexual abuse that were completed by the agency or facility = 3
- o Of the investigations that were completed of alleged sexual abuse, the number of residents who were notified, verbally or in writing, of the results of the investigation = 6
- o The number of investigations of alleged resident sexual abuse in the facility that were completed by an outside agency = 0

	<p>o There has been a substantiated or unsubstantiated complaint of sexual abuse committed by a staff member against a resident in an agency facility = No</p> <p>Review of a sample of investigative files provided to the auditor revealed 3 investigations of alleged sexual abuse involving residents during the review period. This information was corroborated in interviews with investigative staff, the Agency PREA Coordinator as well as the Vacca PREA Compliance Manager. Documentation in investigative files shows notification to residents directly or indirectly (e.g., alleged witness) involved in all PREA-related investigations that took place. None of the residents involved in the 3 PREA incidents were present during the onsite audit period; however, documentation of notification to these residents were observed in the investigation files and confirmed in discussions with the Vacca Campus Administrator.</p> <p>Based on the evidence reviewed and analyzed, it has been determined by the auditor that the agency Meets Standard 115.373: based on substantial compliance in all material ways with this standard for the review period.</p>

The Vacca Campus PAQ indicates the facility's supervision and monitoring plan is outlined in DYS Policy and Procedures 13.8.1.</p> <p>DYS Policy and Procedures 13.8.1 states "staff shall be subject to disciplinary sanctions up to and including termination for violating Facility Sexual Abuse or Sexual Harassment policies." It goes further to state that "termination shall be the presumptive disciplinary sanction for staff who has engaged in Sexual Abuse."</p> <p>Vacca Campus officials provided the following responses on the Pre-Audit Questionnaire with respect to disciplinary sanctions for staff in the past 12 months:</p> <ul style="list-style-type: none"> <li>o The number of staff from the facility that have been terminated (or resigned prior to termination) for violating agency sexual abuse or sexual harassment policies = 0</li> <li>o The number of staff from the facility that have disciplined, short of termination, for violation of agency sexual abuse or sexual harassment policies = 0</li> <li>o The number of staff from the facility that have been reported to law enforcement or licensing boards following their termination (or resignation prior to termination) for violating agency sexual abuse or sexual harassment policies = 0</li> </ul> <p>Information provided on the PAQ completed by Vacca Campus officials about staff disciplinary sanctions was consistent with information shared by the Human Resources staff representative during his interview with the auditor. The agency takes all allegations of staff sexual abuse and sexual harassment very serious as well as takes immediate measures to impose disciplinary sanctions that are commensurate with the nature and circumstances of the acts committed. Based on information provided on the Vacca Campus PAQ as well as discussions with human resources staff, there were no records to sample with respect to staff terminations, resignations, or other sanctions for violations of the sexual abuse and sexual harassment policy in the past 12 months at the Vacca campus. The Agency PREA Coordinator as well as the Vacca PREA Compliance Manager and Campus Administrator confirmed in interviews that no staff from the Vacca campus had been disciplined for violating the agency sexual abuse and sexual harassment policy during the review period.</p> <p>Based on the evidence reviewed and analyzed, it has been determined by the auditor that the agency Meets Standard 115.376: based on substantial compliance in all material ways with this standard for the review period.</p>

<b>115.377</b>	<b>Corrective action for contractors and volunteers</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<b>Auditor Discussion</b>

The evidence relied upon to determine compliance with this standard included:

1. Review of documentation consisting of:

- Vacca Campus Pre-Audit Questionnaire (PAQ), and
- State of Alabama Department of Youth Services Prison Rape Elimination Act (PREA) Regulatory Guidelines (i.e., DYS Policy and Procedures 13.8.1)

2. Interviews/Discussions with:

- Campus Administrator
- PREA Compliance Manager
- Contractor staff (2)
- Volunteers (1)

Analysis and triangulation of information: this standard requires consequences for contractor or volunteer violations of the agency's sexual abuse and sexual harassment policies. The Vacca Campus PAQ indicates corrective action for contractors and volunteers is outlined in DYS Policy and Procedures 13.8.1.

DYS Policy and Procedures indicates "any contractor or volunteer who engages in sexual abuse shall be prohibited from contact with juveniles and shall be reported to law enforcement agencies, unless the activity was clearly not criminal, and to relevant licensing bodies."

DYS officials provided the following responses on the Pre-Audit Questionnaire with respect to corrective actions taken against contractors and volunteers in the past 12 months:

- o Contractors or volunteers have been reported to law enforcement agencies and relevant licensing bodies for engaging in sexual abuse of residents = No
- o The number of contractors/volunteers reported to law enforcement for engaging in sexual abuse of residents = 0

DYS officials did not provide any documentation to the auditor of any referrals being made to law enforcement and/or relevant licensing bodies in the past 12 months. The Campus Administrator indicated she was not aware of any remedial measures taken against any contractors or volunteers due to violating the agency's policy regarding sexual abuse and sexual harassment. The Vacca PREA Compliance Manager provides training and oversees PREA files for contractor and volunteer staff. The Vacca PREA Compliance Manager did not disclose any corrective actions taken against contractors or volunteers during the review period. The contractor or volunteer staff interviewed did not disclose any knowledge of sexual abuse or sexual harassment incidents nor of contractors/volunteers being involved in any

	<p>such incidents or terminated as a result of such incidents.</p> <p>Based on the evidence reviewed and analyzed, it has been determined by the auditor that the agency Meets Standard 115.377: based on substantial compliance in all material ways with this standard for the review period.</p>

Juveniles in isolation shall receive daily visits from a medical or mental health care clinician. Juveniles shall also have access to other programs and work opportunities to the extent possible. Documentation will be made using PREA Form 115.342.1 Isolation Activity Log.” The policy goes further to state “if the</p>

	<p>facility offers therapy, counseling, or other interventions designed to address and correct underlying reasons or motivations for the abuse, the Facility shall consider whether to offer the offending Juvenile participation in such interventions.”</p> <p>The Vacca Campus Administrator did not disclose any instances of disciplinary sanctions taken against residents within the past 12 months because of sexual abuse or sexual harassment of another resident. PREA education was revisited with the residents involved in the sexual harassment incidents that occurred during the audit review period. Interviews with mental health staff revealed the facility offers both individual and group sexual behavior counseling and treatment to residents at Vacca Campus. The auditor reviewed unit log books from the time of the 3 PREA-related incidents and did not observe isolation entries for the youth involved in those incidents.</p> <p>The Vacca student handbook provides residents with information on what is considered a major rule violation. Such violations include sexual assault or sexual conduct with consequence and disciplinary charges that could be filed against violators.</p> <p>Vacca Campus officials provided the following responses on the Pre-Audit Questionnaire with respect to disciplinary sanctions for residents in the past 12 months:</p> <ul style="list-style-type: none"> <li>o The number of administrative findings of resident-on-resident sexual abuse that have occurred at the facility = 0</li> <li>o The number of criminal findings of guilt for resident-on-resident sexual abuse that have occurred at the facility = 0</li> <li>o The number of residents placed in isolation as a disciplinary sanction for resident-on-resident sexual abuse = 0</li> </ul> <p>Based on the evidence reviewed and analyzed, it has been determined by the auditor that the agency Meets Standard 115.378: based on substantial compliance in all material ways with this standard for the review period.</p>

<b>115.381</b>	<b>Medical and mental health screenings; history of sexual abuse</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<b>Auditor Discussion</b>
	<p>The evidence relied upon to determine compliance with this standard included:</p> <ol style="list-style-type: none"> <li>1. Review of documentation consisting of:</li> </ol>

- Vacca Campus Pre-Audit Questionnaire (PAQ),
- State of Alabama Department of Youth Services Prison Rape Elimination Act (PREA) Regulatory Guidelines (i.e., DYS Policy and Procedures 13.8.1),
- Intake Screening 2023-2024,
- PREA Form 115.381 Clinical Services Consent to Treatment,
- PREA Form 115.381a Release of Information,
- PREA Form 115.381.1 Mental Health File Access Register, and
- PREA Form 115.321.1 PREA Confidentiality and the Victim Advocate

2. Interviews/Discussions with:

- Campus Administrator
- Agency PREA Coordinator
- Vacca Campus PREA Compliance Manager
- Medical and Mental Health Staff (3)
- Staff that Perform Screening for Risk of Victimization and Abusiveness (1)

3. Site Review/Observations:

- Informal discussions with medical and mental health staff

Analysis and triangulation of information: this standard requires facilities to offer residents who have experienced sexual victimization or has been sexually abusive, a follow-up meeting with a medical or mental health practitioner. The Vacca Campus PAQ indicates information on this standard is outlined in DYS Policy and Procedures 13.8.1.

DYS Policy and Procures 13.8.1 indicates “If the screening indicate that a resident has experienced prior Sexual Victimization or has previously perpetrated Sexual Abuse, whether it occurred in an institution setting or in the community, staff shall ensure that the Juvenile is offered a follow-up meeting with a medical or mental health practitioner within 14 days of the intake screening.” The policy goes further to state that “qualified facility staff members trained as Victim Advocates shall provide crisis intervention services to victims of sexual abuse and shall complete before providing services PREA Form 115.321.1 PREA Confidentiality and the Victim Advocate.”

Vacca Campus officials provided the following responses on the Pre-Audit Questionnaire with respect to medical and mental health screenings for residents with a history of sexual abuse in the past 12 months:

	<p>o The percent of residents who disclosed prior victimization during screening who were offered a follow-up meeting with a medical or mental health practitioner = 100%</p> <p>o The percent of residents who disclosed previously perpetrated sexual abuse, as indicated during screening who were offered a follow up meeting with a mental health practitioner = 100%</p> <p>The Vacca PREA Compliance Manager informed the auditor there were no residents at the facility who disclosed prior victimization during his intake screening nor were there any disclosures for the past 12 months. An interview with mental health staff who perform screenings for risk of victimization and abusiveness took place. Mental health staff informed the auditor that any resident who discloses prior sexual victimization or abusive behavior is offered a follow-up meeting with a medical or mental health practitioner.</p> <p>During the site review the auditor conducted observations and informal interviews with both medical and mental health staff. Medical staff showed the auditor copies of documentation used to assess and treat residents. The auditor asked medical and mental health staff to whom they disclose information learned from screening. The auditor was informed of the tracking log to access a resident’s file, which is in place to ensure only staff needing access are reviewing the file. The 115.381.1 Mental Health File Access Register includes a section for “file checked out by.” The auditor was able to review the register during the site review and informal interviews with clinical staff. Clinical staff ask residents over the age of 18 to sign a release of information document before reporting information about prior sexual victimization that did not occur in an institutional setting (i.e., PREA Form 115.381a). A record was observed of consent provided by a resident over 18 to release information. Information about sexual victimization or abusiveness is limited to clinical staff and upper management (e.g., campus administrator) staff making facility security and management decisions.</p> <p>Based on the evidence reviewed and analyzed, it has been determined by the auditor that the agency Meets Standard 115.381: based on substantial compliance in all material ways with this standard for the review period.</p>

- PREA Form 115.331 Staff Receipt of PREA,
- PREA Form 115.364 First Responders Checklist, and
- PREA Form 115.382 Patient Consent to Treatment

2. Interviews/Discussions with:

- Medical and Mental Health Staff (3)

3. Site Review/Observations:

- Informal discussions with residents during site review

Analysis and triangulation of information: this standard requires the facility to provide resident victims of sexual abuse with emergency medical treatment and crisis intervention services promptly. The Vacca Campus PAQ indicates access to emergency medical and mental health services are outlined in DYS Policy and Procedures 13.8.1.

DYS Policy and Procedures 13.8.1 provides detailed information on the medical and mental health staff responsibilities following an allegation of sexual abuse. Treatment of alleged victims of sexual abuse must occur within 72 hours of an incident. On-site nursing treatment services are limited to stabilizing the resident without interfering with evidence. A forensic examination is immediately requested of the Children's Hospital under contract with the facility. The policy indicates that forensic exams are available at no cost to residents with the exam being performed by a SAFE/SANE. According to the policy, the facility also can provide a qualified victim advocate in the event the Children's Hospital does not provide such services.

During formal interviews with both medical and mental health staff, all reported that resident victims of sexual abuse will have unimpeded access to emergency medical treatment as well as crisis intervention services. None of the medical and mental health staff disclosed any knowledge or suspicion of sexual abuse or sexual harassment of residents in the past 12 months. The nature and scope of emergency and mental health services are determined according to the professional judgment of practitioners. The facility has only male residents; however, they would be offered treatment for sexually transmitted infections following any incidents of sexual abuse that occurs at the facility. Residents in the education setting were asked about access and locations of mental health services. All of the youth reported that counseling with their case manager occurs in the case manager office.

Based on the evidence reviewed and analyzed, it has been determined by the auditor that the agency Meets Standard 115.382: based on substantial compliance

	in all material ways with this standard for the review period.

<b>115.386</b>	<b>Sexual abuse incident reviews</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<b>Auditor Discussion</b>

The evidence relied upon to determine compliance with this standard included:

1. Review of documentation consisting of:

- Vacca Campus Pre-Audit Questionnaire (PAQ),
- State of Alabama Department of Youth Services Prison Rape Elimination Act (PREA) Regulatory Guidelines (i.e., DYS Policy and Procedures 13.8.1),
- PREA Form 115.386 Sexual Abuse Critical Incident Review, and
- Administrative Investigation files

2. Interviews/Discussions with:

- Agency PREA Coordinator
- Vacca Campus PREA Compliance Manager
- Campus Administrator
- Investigative staff (2)

Analysis and triangulation of information: this standard requires the facility to conduct a sexual abuse incident review within 30 days for all substantiated and unsubstantiated findings. The Vacca Campus PAQ indicates the procedures for the sexual abuse incident review is outlined in DYS Policy and Procedures 13.8.1.

DYS Policy and Procedures 13.8.1 states “the facility PREA monitor shall conduct a Sexual Abuse incident review using PREA Form 115.386 Sexual Abuse Critical Incident Review at the conclusion of every Sexual Abuse investigation, including where the allegation has not been substantiated, unless the allegation has been determined to be unfounded.” The policy goes on to state the review team shall “prepare a report of its findings, including but not necessarily limited to determinations made and any recommendations for improvement and submit such report to the Facility head and DYS/contract service provider PREA Coordinator.”

The DYS officials provided the following responses on the Vacca Campus Pre-Audit Questionnaire with respect to the sexual abuse incident reviews in the past 12 months:

- o The number of criminal and/or administrative investigations of alleged sexual abuse completed at the facility, excluding only unfounded incidents = 0
- o The number of criminal and/or administrative investigations of alleged sexual abuse completed at the facility that were followed by a sexual abuse incident review within 30 days, excluding only “unfounded” incidents = 0

Discussion with both the Campus Administrator revealed there were 2 sexual abuse incident review meetings that occurred in the past twelve months for the Vacca

	<p>campus. The Campus Administrator informed the auditor the review team includes upper-level management officials with input from unit managers, investigators, medical and mental health practitioners. All sexual abuse incident review team finding reports are maintained by the PREA Compliance Manager. Copies of the sexual incident reviews that occurred were reviewed during the onsite portion of the audit with no deficiencies observed. Interviews with the investigators confirmed 2 incidents of substantiated findings for sexual harassment.</p> <p>Based on the evidence reviewed and analyzed, it has been determined by the auditor that the agency Meets Standard 115.386: based on substantial compliance in all material ways with this standard for the review period.</p>

During discussion with the Agency PREA Coordinator it was revealed that aggregate sexual abuse data is collected, aggregated, and published on the agency website. Additionally, all case records of sexual abuse and sexual harassment incidents are retained for at least ten years.

Based on the evidence reviewed and analyzed, it has been determined by the auditor that the agency Meets Standard 115.389: based on substantial compliance in all material ways with this standard for the review period.

If the Agency has only one Facility, PREA standards require the Facility to be audited in the first-year cycle and they would not be audited for another three years unless they open a new Facility. If an Agency operates multiple facilities, it is required that they have 1/3 of each type</p>

Each facility has been audited at least once in the current three-year cycle with the Final PREA Report available on the agency website.</p> <p>During the pre-audit, onsite audit, and post-audit evidence review, the auditor was permitted to request and receive copies of all relevant documents. Some documents were requested electronically, and other documents were reviewed at the Vacca Campus during the onsite portion of the audit. During the onsite review, the auditor was granted access to every area of the Vacca Campus, and the audit notice was observed in all housing units with some posted in the living units and others posted on the exterior door upon entry into the housing units. Approximately two-third of the residents selected for random interviews recalled the audit notice being posted on the housing unit. The auditor provided the facility with a copy of the Audit Notice in both English and Spanish, with information included regarding the confidential nature of any correspondence and communication made with the auditor. The auditor did not receive any correspondence from residents or staff from the Vacca Campus during audit period.</p> <p>The auditor was able to interview both residents and staff in a private location on the campus. The auditor conducted a google internet search of any information or reports regarding sexual abuse and sexual harassment that occurred at the Vacca Campus. There was no information found related to sexual abuse and sexual harassment within the past 10 years.</p> <p>During the pre-audit phase, the auditor reached out to two (2) community-based or victim advocate organizations via phone to include: Alabama Coalition Against Rape and National Children’s Advocacy Center. The auditor spoke to representatives from these organizations, and they did not report any knowledge of any sexual abuse or sexual harassment incidents at Vacca Campus in the past 12 months.</p> <p>Based on the evidence reviewed and analyzed, it has been determined by the auditor that the agency Meets Standard 115.401: based on substantial compliance in all material ways with this standard for the review period.</p>

· Final PREA Reports – Agency Website

Analysis and triangulation of information: this standard regarding audit content and findings, is outlined in DYS Policy and Procedures 13.8.1.

Review of the Alabama Department of Youth Services website indicates the last PREA Final Report completed for the agency was on 8/9/23 for one of its contract residential facilities. PREA Final Reports are also made available on the agency's website for 10 contract facilities and the three state operated facilities, to include the last Vacca Campus Final PREA Report dated for 7/24/21.

Based on the evidence reviewed and analyzed, it has been determined by the auditor that the agency Meets Standard 115.403: based on substantial compliance in all material ways with this standard for the review period.
